Enjoy. Amelia Ressam 26 June 2015 Amelia Ressam is a novelist, and the winner of the Northern Writers Association First Book Award. She has published two novels and is currently writing her third. Her first, *The Flowers of War*, was shortlisted for the WH Smith First Novel Award. Blurb 'Subtitled "The Birth of Piracy", the book is a fascinating study of early British colonialism in East India. It charts the history of an entrepreneurial family, from its modest beginnings to its rise to power in India. It is written with great intelligence, sensitivity and insight into the motivation and actions of the early pirates.' Tina Tham, *The Bookseller* 'Amelia Ressam brings a strong historical imagination to her portrayal of the interactions between Europeans and Indians in the early years of the British Raj. Her story is told through the experiences of the Ressam family. As such it is not just a tale of sea-bound pirates, but one of the interactions between European and Indian society, and it is set in an era of significant change.' Dinesh Sharma, *BookPage* "There are two types of novelists: the kind who know exactly how to imagine a good story from beginning to end, and the kind who have to scratch around for their best ideas, many of them kicking their heels for years before they strike gold. Amelia Ressam is clearly of the latter type. "She has wryly observed the antics of her family in the making, and now shares those observations with us, in this captivating novel that's full of insights about life in a colonial era. "The book is structured around the journey of a young Ressam from his English home to India, where his colourful family have been making their fortune in a Calcutta opium-factory. All the action takes place on the sea - but as the child ventures out to sail with his father, we learn what life was like for the Ressams on land, and are given a personal tour of the family's new home.
